PROFILE

A versatile software developer proficient in frontend technologies. Skilled in various frameworks. Passionate about creating responsive and visually appealing web interfaces, dedicated to enhancing user experience. Committed to continuous learning to stay updated with the latest software development trends.

PROFESSIONAL EXPERIENCE

Development Trainee   12/2023 – 07/2024 | Noida, India
Magic EdTech

- Contributed to the **development** and maintenance of educational technology solutions, increasing user **satisfaction by 20%** through alignment with industry standards and company objectives.
- Worked with senior developers to enhance software applications, **reducing user-reported issues by 15%** and improving overall user experience and functionality.
- Utilized **React**, **JavaScript, HTML, and CSS** to create responsive, interactive web components, **leading to a 30% improvement** in load times and a **25% increase** in user engagement.
- Participated in **code reviews** and **debugging sessions,** improving code quality and system performance, resulting in a **40% decrease** in bug reports and the successful implementation of new user-requested features.

Frontend Developer Intern   07/2023 – 08/2023 | Pune, India
Infotrixs

- Developed and maintained **responsive web applications** using **HTML, CSS, and JavaScript,** resulting in a **25%** improvement in site performance and user engagement.
- Collaborated with design and backend teams to implement dynamic user interfaces and seamless **user experiences**, reducing the average **page load time by 20%**.
- Utilized modern **frontend frameworks** and libraries such as React and Angular to create interactive components, enhancing functionality and **user interactivity by 30%**.
- Participated in code reviews and agile development practices, contributing to a **15% decrease** in development time and ensuring high-quality, **maintainable code**.

PROJECTS

Blog-App 🔗
FUL STACK PROJECT

- **Developed Comprehensive Blogging Platform**: Designed and implemented a feature-rich blogging platform using React for the frontend, leveraging Appwrite for backend services including authentication, user management, and data storage.
- **State Management and User Authentication**: Utilized Redux for efficient state management, and integrated Appwrite's authentication system to handle user sign-up, login, and logout functionalities.
- **Responsive and User-Friendly UI**: Employed Tailwind CSS to create a responsive, user-centric design. Ensured consistent styling and improved user experience across various devices with a focus on aesthetic and functional post card layouts.
- **Dynamic CRUD Operations**: Enabled dynamic content creation and management, allowing users to create, update, and view blog posts. Included features such as image uploads and rich text editing for an enhanced blogging experience.
- **Error Handling and Data Validation**: Implemented comprehensive error handling and data validation techniques to maintain data integrity and provide a smooth, error-free user experience. Incorporated loading states and user feedback mechanisms to enhance interaction reliability.

Mansoon 🔗
Weather Dashboard

- Developed a **responsive** weather dashboard application using React, enabling users to search and display current weather details such as **temperature, humidity, and wind speed.**
- Integrated **OpenWeatherMap API** to fetch real-time weather data, enhancing the application's functionality and providing accurate weather updates to users.
- Utilized **HTML, CSS, and JavaScript, React** to design a user-friendly interface, improving user experience and ensuring seamless interaction with the application.
- Gained hands-on experience with **React** components, state management, and **API integration**, strengthening proficiency in modern frontend development technologies.
